

Electricity Supply Cable Joiner

What Cable Joiners Do:

Cable Joiners have skills that are in wide demand in the electricity supply industry and can find themselves working in a variety of locations from power station on the Clutha River to underground utility services on Queen Street in Auckland. Their role is to work on high voltage electricity cables. They install, join and solder power cables and test and measure the performance of the cables and insulation. There is a great deal of individual responsibility making sure that the work is done correctly and safely.

▶ About ESITO

ESITO is the Electricity Supply Industry Training Organisation that

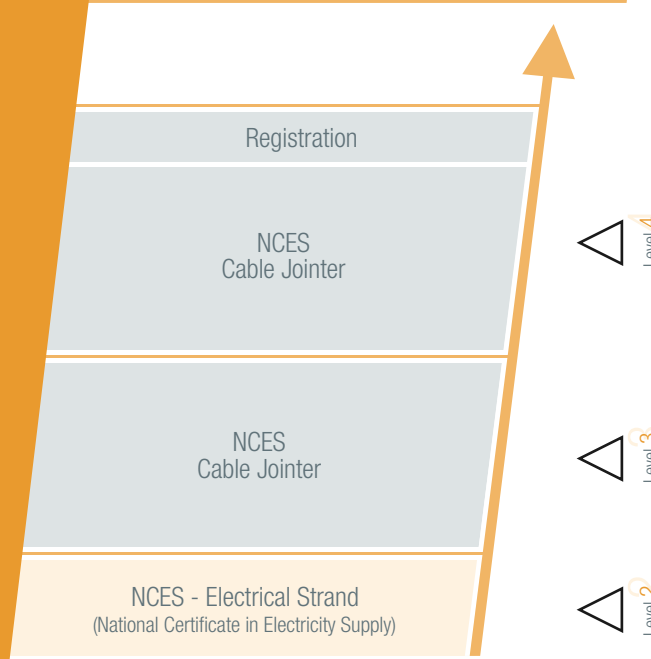

- sets standards and registers qualifications on the National Qualifications Framework that meet the needs of the industry;
- manages training arrangements that enable employees in the industry to achieve these standards and qualifications; and
- provides leadership to the industry on skill and training matters.

ESITO ensures that trainees get a lot of help to complete their qualifications. We work closely with trainees and their employers to make sure that they have mentors or coordinators who will help plan their progress.

After you become a trainee with ESITO, we will make sure that all your unit standards and qualifications are registered as you complete them. ESITO can also help you identify scholarship opportunities if you need financial support to advance your training and development. ESITO will work closely with your employer to plan your training and makes sure that the qualifications you get are recognised nationally and internationally.

▶ Planning Your Career

The electricity supply industry has a lot of training and career choices. We'll help you plan your training to develop a rewarding and satisfying career that can take you anywhere - whether it's up the corporate ladder, out into the countryside, across the ditch or around the world.

It doesn't matter where you start off in this industry. You're not locked into your first choice. You can try new jobs and learn new skills all the time. And while you're training, you're not only paid but you can look forward to well-paid jobs and packages in all sectors of the industry.

ESITO provides:

- well structured training programmes
- internationally recognized qualifications
- individual coaching and training support
- self-paced learning
- ability to check your own progress
- help with career planning and development
- modern apprenticeships support
