

M - Learning

Mobile Technology

M-technology

- **Alternative learning solution**
- **Builds on RFID Technology**
- **Ultimately increase the uptake and completion of national qualifications**

Trainees in trial will be provided with mobile phones which will enable them to access the following services.

- **Targeted learning**
- **Just in Time (JIT) Learning**
- **Reinforcement of “key learning points”**
- **Mixed mode of delivery**

Files are currently being developed

Each learning will have a video, text and audio file which will outline:

- **Process / requirements**
- **Important points**
- **Any references (such as regulations etc.)**

Basic PPE Video

Glove Testing Video

Safe Ladder Use Video
