

# NEW ENTRANT DIRECTORY

## **Having trouble recruiting or finding new trainees?**

**The ESITO New Entrant Directory gives you access to enthusiastic and committed people who are looking for employment in the electricity supply and telecommunications industries.**

Each year, ESITO organises a wide range of pre-employment courses across the country to encourage more young people into the electricity supply and telecommunications industries. From these courses we now have an excellent cross-section of people actively looking for employment with a company like yours.

**As an ESITO member, you can get access to these people through the ESITO New Entrant Directory.**

They already have basic industry knowledge and skills, such as health and safety and workshop practices and many have completed the National Certificate in Electricity Supply (L2) or have participated in an ESITO two week Taster Course. They have some training and are enthusiastic and ready to go.

We have also included job seekers who may not have any formal industry training, but nonetheless are still actively seeking employment in our industries.

**If you're interested in meeting or interviewing any of the new entrants in this directory, please contact your regional ESITO Customer Service Manager.**

**For the latest version of the ESITO New Entrant Directory, contact your regional ESITO Customer Service Manager.**
